

# WELCOME TO UNC!

UNC uses the Passport Parking App for short-term parking transactions in all lots on campus

Please visit <https://www.passportparking.com/> to download the Passport app, or scan this QR code.

We highly recommend downloading the app prior to arrival to expedite entry

## How to Use a Passport Parking Code

1. In the Passport app click on New Session. You'll be asked to enter a credit card even if you're using a code.
2. Enter the zone you're parked in. There are signs located throughout parking lots displaying the zone number.
3. Using the green slider, select your parking duration. When using a code always round up by 30 minutes. If your code allows for 2 hours of parking select 2 hours and 30 minutes.
4. At the checkout, click on Redeem and enter your code.
5. Before you confirm payment make sure the total equals \$0.00.
